"Our city urgently needs new and more compassionate leadership at every level of government. The Urban Leadership program is part of the union's broader initiative to develop an alternative approach to city governance. While providing enhanced educational opportunities to Local 1180 members, the program calls on the creative power of our members to seek solutions to the City's most pressing problems and to advance to leadership positions. This is an extremely important effort for our members, our union, and indeed, our city."
